

- Metallic mat finish for good looks
- Double ball bearing
- Dynamic design pattern
- Copper winded motor
- Low voltage performance

56" Solar Ceiling Fan
Design:A&C
Specification

1. More than 30000 hours life motor in high efficiency;
2. 100% Copper Brushless Motor; Energy Saving Motor;
3. Voltage: DC 12V, Power: 6-36W;
4. 5 Adjustable speed;
5. 75% Energy Saving compare AC motor;
6. Highest Speed: 320RPM;
7. Keep perfect working even in low voltage;

Application

Power Supply	Source	Speed	Power Consumption
solar system	12V DC power	lowest	6W
solar panel directly	≥45W	middle	15W
100V-240V AC power	AC adapter	highest	36W

Designs:

- A:DC Solar Fan(Solar Only)
- B:Rechargeable Solar Fan(Solar&Battery)
- C:ADC Solar Fan(Solar&Electricity)
- D:ADC Rechargeable Solar Fan(Solar&Electricity&Battery)

400MM fan blades: 3 speed: H: 1350RPM; M: 1150RPM; L: 1000RPM;
Charging method:AC110V/220V/solar panel; charging time: 6-8hrs;
Fan working hours: 4-8hours for 2 batteries charged fully and 8-15hours
6V4.5Ah*2 or 6v4.5Ah*4 maintenance free lead-acid batteries;
Fan Height: 120cm adjustable height: 12-15cm;

- Metallic mat finish for good looks
- Copper winded motor
- Double ball bearing
- Low voltage performance

Fashion pedestal fan with stable function.

Stronger and durable fan structure with full copper wiring.

Warm bright LED pedestal fan in new design.
